BASIC-ABSTRACT:

The present invention discloses a Xinnaoxuekang food intensifying agent and a Xinnaoxuekang beverage intensifying agent, which are compounded by using flavone, flaonol, ginkgo lactone and similar matters extracted from the flower and leaf of gymnosperm and dicotyledonous wood-plant as base and using daily food and beverage as carrier. The intensifying agents in certain amount are first compounded into food or beverage and seasoning according to daily average diet amount. The foodstuffs or beverages are supplied to patients suffering from cardiac and cerebrovascular diseases and obesity and those threatened by these diseases to prevent and cure the diseases.
